Introduction

The **PunkBuster Anti-Cheat Website** serves as the official online platform for managing and supporting **PunkBuster**, a trusted and long-standing anti-cheat system widely used in online multiplayer games. Developed to uphold fairness and integrity in competitive gaming environments, PunkBuster provides advanced tools to detect and prevent cheating behaviors such as wallhacks, aimbots, and unauthorized game modifications. The website acts as the central access point for players, administrators, and developers, offering essential resources for **software installation, configuration management, version updates, server administration, and troubleshooting**. It also provides detailed documentation, FAQs, and support links to ensure users can maintain secure and stable game environments.

Currently, PunkBuster continues to play a **crucial role in maintaining the credibility and trustworthiness of online gaming ecosystems**, particularly in first-person shooter and strategy-based multiplayer titles. By constantly scanning for suspicious activities and ensuring compliance with fair-play standards, it prevents exploitative gameplay and preserves balanced competition among players. However, despite the system's technical robustness and proven effectiveness, the **existing website interface faces several usability and accessibility challenges**. Its layout and design are dated, with dense text content, minimal visual guidance, and limited responsiveness across devices. Navigation can feel unintuitive, and technical jargon often overwhelms new users or non-technical audiences who struggle to locate instructions or understand configuration steps. Additionally, inconsistent information hierarchy and limited feedback mechanisms reduce overall engagement and confidence in using the platform.

This project aims to **revamp and modernize the PunkBuster Anti-Cheat Website** to deliver a more intuitive, visually appealing, and user-centered experience. The redesigned platform will feature **streamlined content organization**, clearer navigation paths, and a responsive interface optimized for both desktop and mobile users. By incorporating visual cues, interactive help sections, and simplified setup workflows, the new design will make it easier for players and administrators to access updates, configure settings, and resolve issues efficiently. The ultimate goal is to **transform the website into a modern, accessible, and professional hub** that enhances usability while reinforcing PunkBuster's commitment to maintaining a fair, transparent, and secure gaming environment.

Problem Statement

The **PunkBuster Anti-Cheat Website**, though vital for managing game security, no longer meets modern usability and accessibility standards. Its outdated and highly technical interface creates difficulties for new users, non-technical players, and administrators who depend on quick access to updates and support. Navigation is confusing, key features are hidden within complex menus, and the design lacks visual clarity and mobile responsiveness.

Inconsistent layouts, poor information hierarchy, and limited interactivity further contribute to user frustration and inefficiency. As a result, users often struggle to find installation files, configuration guides, and troubleshooting steps, affecting their overall experience and confidence in the platform.

With today's gaming platforms emphasizing **user-centered design** and **ease of interaction**, the existing PunkBuster website falls short of expectations. Hence, there is a pressing need to **redesign and modernize the platform** to enhance usability, improve navigation, and deliver a more intuitive and engaging experience for all users.

Methodology

The project began with a **data-gathering phase**, aimed at understanding how users currently interact with the PunkBuster website. To achieve this, **contextual inquiries** and **semi-structured interviews** were conducted with a sample group of players and administrators. These sessions helped identify common usability barriers

such as difficult navigation, outdated layouts, and unclear instructions. In addition, **user observation and feedback analysis** provided insights into how users perceive the website's clarity, functionality, and visual appeal.

Following data collection, the findings were analysed to highlight **key pain points** and prioritize areas for improvement. Based on these insights, **low-fidelity sketches** were created to visualize layout ideas and navigation structures. The sketching phase allowed experimentation with different arrangements before committing to detailed design elements.

For **low-fidelity prototyping**, tools such as **Draw.io** were used to outline initial page flows and interface layouts. After refining these designs, **Figma** was utilized to develop **high-fidelity prototypes**, showcasing realistic colours, typography, and interactions that mirror the final website design. Figma's interactive features enabled the simulation of user tasks such as downloading updates, accessing support, and navigating between pages.

Finally, **usability testing** was conducted to evaluate the redesigned prototype. Participants were asked to perform common tasks while providing feedback on clarity, navigation ease, and visual design. The collected feedback was then analysed to measure improvements and identify any remaining usability concerns, ensuring that the redesigned PunkBuster platform delivers an enhanced, intuitive, and user-friendly experience.

Task Description and Testing Results

IT23321236 Nafy F A

Generate Dummy Data

Name of the Participants	Feature/Task 1	Feature/Task 2	Feature/Task 3	Note
New Visitor	Navigate to the "" page from the navigation bar	Use the search and filter (Platform, Sort) to find a specific game	Click on a game card to see more details (e.g., "Fully Supported")	
PC Gamer	Navigate to the "PB Setup" page from the navigation bar	Identify and download the correct PBSetup version for their Windows OS	Follow the on-screen instructions to install the software	
User with an Issue	Navigate to the "Support" section and find the FAQ page	Use the category filters (General, Technical, etc.) to find a relevant question	Use the "Contact Support" form to submit a ticket when the FAQ doesn't help	User has a specific technical problem not listed.

Sample Analysis of Data

Prototype screen/UI	User's feedback/Problem	Reason for negative feedback	Severity (high/medium/low) and justification	Way(s) to rectify and any tradeoffs
Press Release / PB News Page	"The platform filter and search function make it simple to find exactly what I need"	-	-	-
License Page	"The form submission is simple and confirmation looks professional."	-	-	-
Careers / Join Us Page	"The job listings and application process are very user-friendly."	-	-	-

Test Case

Test ID	Test Input	Expected Output	Actual Output	Result (Pass/Fail)
1	On PB News Page , click on a specific article	Article opens showing title, date, and content	Displays correctly	Pass
2	On PB News Page , search for a keyword in articles	Displays relevant filtered results	Works as expected	Pass
3	On License Page , fill and submit License Inquiry Form	Shows "Inquiry Submitted Successfully" message	Works correctly	Pass

IT23321618 Rathnayaka R.M.N.P.D.

Generate Dummy Data

Name of the Participants	Feature/Task 1	Feature/Task 2	Feature/Task 3	Note
New Visitor	Navigate to the "Games" page from the navigation bar	Use the search and filter (Platform, Sort) to find a specific game	Click on a game card to see more details (e.g., "Fully Supported")	
PC Gamer	Navigate to the "PB Setup" page from the navigation bar	Identify and download the correct PBSetup version for their Windows OS	Follow the on-screen instructions to install the software	
User with an Issue	Navigate to the "Support" section and find the FAQ page	Use the category filters (General, Technical, etc.) to find a relevant question	Use the "Contact Support" form to submit a ticket when the FAQ doesn't help	User has a specific technical problem not listed.

Sample Analysis of Data

Prototype screen/UI	User's feedback	Reason for positive feedback	Severity (High/Medium/Low)	Way(s) to maintain
Support + Contact Page	"Form is simple and easy to use."	-	-	-
About Us Page	"The timeline and visuals tell a great story."	-	-	-
Game Details Page	"Details are concise and informative."	-	-	-

Test Case

Test ID	Test Input	Expected Output	Actual Output	Result (Pass/Fail)
1	On Support Page , fill all form fields and click "Submit Form"	"Request Submitted" confirmation appears	Works as expected	Pass
2	On About Us Page , click "Add Your Review" button and submit	Review added successfully and visible below section	Works correctly	Pass
3	On Game Details Page , click "Visit Game Website"	Opens official game website in new tab	Works correctly	Pass

IT23205642 Gunawardhana R.D.T.A.

Generate Dummy Data

Name of the Participants	Feature/Task 1	Feature/Task 2	Feature/Task 3	Note
New User	Navigate to the Sign Up Page	Fill in all required fields (Full Name, Email, Password, Confirm Password)	Click Sign Up to complete registration successfully	First-time visitor registering
Registered User	Go to the Login Page	Enter valid credentials or use Google Sign In	Redirected to Home Page after successful login	Returning user
Signed-in User	Access the Home Page	Browse Featured Games, PB News, and PB Setup sections	Navigate through links like Games, Support, FAQ, and About Us	User already logged in

Sample Analysis of Data

Prototype screen/UI	User's feedback	Reason for positive feedback	Severity (High/Medium/Low)	Way(s) to maintain
Login Page	"The interface is clean and simple to use."	-	-	-
Sign Up Page	"The registration form is clear and straightforward."	-	-	-
Home Page	"The layout is engaging with clearly divided sections."	-	-	-

Test Case

Test ID	Test Input	Expected Output	Actual Output	Result (Pass/Fail)
1	On Login Page , enter valid credentials and click "Login"	Redirect to Home Page with success message	Works as expected	Pass
2	On Sign Up Page , fill all fields and click "Sign Up"	"Successfully Registered" message appears	Message appears correctly	Pass
3	On Home Page , scroll through sections	All content (Featured Games, PB News, User Experience) loads properly	Sections load correctly	Pass

IT23305564 Rizvi M.Z.M.

Generate Dummy Data

Name of the Participants	Feature/Task 1	Feature/Task 2	Feature/Task 3	Note
New Visitor	Navigate to the "Games" page from the navigation bar	Use the search and filter (Platform, Sort) to find a specific game	Click on a game card to see more details (e.g., "Fully Supported")	
PC Gamer	Navigate to the "PB Setup" page from the navigation bar	Identify and download the correct PBSetup version for their Windows OS	Follow the on-screen instructions to install the software

License Agreement

Last updated: October 5, 2024

This License Agreement (the "Agreement") is a legal agreement between you (either an individual or a single entity) and EvenBalance, Inc. ("EvenBalance") for the use of the EvenBalance software product (the "Software"). By installing, copying, or otherwise using the Software, you agree to be bound by the terms of this Agreement. If you do not agree to the terms of this Agreement, do not install or use the Software.

Grant of License

EvenBalance grants you a non-exclusive, non-transferable license to use the Software for your internal business purposes. You may not sublicense, rent, lease, or otherwise transfer the Software or your rights under this Agreement.

Restrictions

You may not: (a) modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on the Software; (b) copy the Software (except for backup purposes); (c) remove any proprietary notices or labels on the Software; or (d) use the Software in a service bureau or time-sharing arrangement.

Ownership

The Software is licensed, not sold. EvenBalance retains all right, title, and interest in and to the Software, including all intellectual property rights.

Termination

This Agreement is effective until terminated. EvenBalance may terminate this Agreement if you fail to comply with any of its terms. Upon termination, you must destroy all copies of the Software.

Warranty Disclaimer

THE SOFTWARE IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. EVENBALANCE DOES NOT WARRANT THAT THE SOFTWARE WILL MEET YOUR REQUIREMENTS OR THAT ITS OPERATION WILL BE UNINTERRUPTED OR ERROR-FREE.

Limitation of Liability

IN NO EVENT SHALL EVENBALANCE BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

Employee Testimonials

Cla Rodriguez ★★★★★

"Working here has been a game-changer for me. I'm not just a developer; I'm an innovator. The company truly empowers us to push boundaries and bring our most ambitious ideas to the table. Seeing a feature I designed go live and directly improve the player experience is incredibly rewarding. We're not just building games; we're crafting worlds that millions enjoy."

Cla Rodriguez, Senior Game Developer

Haya Ahamed ★★★★★

"What I value most is the unwavering support for professional growth. When I expressed interest in transitioning into cybersecurity, leaders didn't just listen—they acted. They provided mentorship and training, allowing me to pivot my career entirely. This company invests in its people, and that commitment fosters a loyalty and drive you won't find anywhere else."

Haya Ahamed, Cyber Threat Analyst

David Kim, ★★★★★

"As a UI/UX developer, my goal is to create seamless, intuitive experiences. Here, that user-centric philosophy is shared by everyone—from engineers to executives. The collaboration is exceptional. We're constantly challenging each other to do better for the user, and that shared mission makes coming to work feel purposeful."

David Kim, Senior UI/UX Developer

Welcome to PunkBuster Online Countermeasures

Welcome to Even Balance, Inc., home of PunkBuster™, the original anti-cheat system. Since September of 2025, the staff members at Even Balance have worked to identify and remove cheaters from dozens of on-line games. Our approach, technology, and experience have made PunkBuster the top-tier anti-cheat solution in the video game industry.

PunkBuster proudly features:

- Decades of experience in the anti-cheat business
- Support for all major and many proprietary game engines
- Game specific cheat research and detection
- Real-time, continuous memory scanning during gameplay
- Environment modification detection
- Background auto-updates
- Administrative tools (screen shots, ban lists, streaming)

Featured Games

Cosmic Conflict
Engage in epic space battles with Cosmic Conflict, fully supported by PunkBuster for a fair gaming experience.

Homeworld
The terrain matters. Sand dunes can provide cover for your units to ambush enemies, creating a fantastic layer of tactical depth.

Sins of a Solar Empire
The sheer scale. You're not just fighting in one asteroid field; you're fighting over multiple planets and moons in a single, massive map.

Call of Duty
A fast-paced first-person shooter game where you battle in intense military warfare across various missions and modes.

Arcane legends
A visually stunning animated game explores the origin story of two sisters caught magic conflict in the world of League of Legends

Urban Warfare
Close-quarters military combat that takes place in densely populated city filled with buildings, and civilian obstacles.

Featured Games

Cosmic Conflict
Engage in epic space battles with Cosmic Conflict, fully supported by PunkBuster for a fair gaming experience

Homeworld
The terrain matters. Sand dunes can provide cover for your units to ambush enemies, creating a fantastic layer of tactical depth.

Sins of a Solar Empire
The sheer scale. You're not just fighting in one asteroid field; you're fighting over multiple planets and moons in a single, massive map.

PunkBuster Setup Guide

Follow these steps to install and configure PunkBuster for your games. Ensure a secure and fair gaming experience by keeping your anti-cheat software up to date.

Step 1: Download PBSetup

Download the latest version of PBSetup from the official PunkBuster website. This tool will assist you in installing and updating PunkBuster.

Operating System	Version	Download
Windows	3.8	For All Windows Games
Linux	3.2	For 32-bit Linux Games (GUI version)
Linux	3.2	For 32-bit Linux Games (Command-line only version)
Linux	3.2	For 64-bit Linux Games (GUI version)
Linux	3.2	For 64-bit Linux Games (Command-line only version)
Mac OSX	3.2	For All Intel Mac OSX Games

[Go to PBSetup Download](#)

Step 2: Install PBSetup

Run the downloaded PBSetup executable. Follow the on-screen instructions to install the software on your system.

Step 3: Configure PunkBuster

Launch PBSetup and select the games you want to enable PunkBuster for. The tool will automatically update the necessary files.

Step 4: Troubleshooting

If you encounter any issues during the setup process, refer to the troubleshooting section or visit the FAQ for common solutions. For more detailed information, visit our FAQ page.

System Requirements

Ensure your system meets the minimum requirements for PB to function correctly. The recommended specifications provide optimal performance.

Minimum Requirements	Windows 7 or later, 2GB RAM, 100MB free disk space
Recommended Requirements	Windows 10 or later, 4GB RAM, 200MB free disk space
